

ft::SubjectObserver

```
classDiagram
    class ft_TxtMotionDetection["ft::TxtMotionDetection"]
    class ft_SubjectObserver["ft::SubjectObserver"]
    ft_TxtMotionDetection --|> ft_SubjectObserver
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'ft::TxtMotionDetection'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'ft::SubjectObserver'. This indicates that 'ft::TxtMotionDetection' inherits from 'ft::SubjectObserver'.
